Amplify Launch Soybean Performance Overview:

Amplify
YIELD ENHANCEMENT TECHNOLOGY
LAUNCH | SOYBEAN 
Planter Box Treatment

Actual product packaging may be different than this visual

PRODUCT BENEFITS

- Drives early-season taproot nodulation and N-fixation
- Builds stronger, healthier plants fast & massive roots
- Puts soybeans in the position to manage season-long stressors and optimize genetic potential
- Herbicide tolerant bradyrhizobia strain (patent # 8772576)

Biotrinsic M34+N13 Soybean Inoculant Results:

biotrinsic® M34 + N13 combines the benefits of Indigo's M34 and N13 products, combining the nutrient-related capabilities of Indigo's *Bacillus subtilis* strain with the nitrogen fixation-related benefits of *Bradyrhizobium*. Together, they accomplish nitrogen fixation along with uptake of phosphorus, potassium, and most other micronutrients, including iron.

Included Standard with:

Premier 
Seed Treatment

Seed Treatment

CORN HARVEST DATA

NEW 2026 Amplify Launch Corn Overview and Results:

Biotrinsic W12
A root bio-stimulant that increases root mass for more effective nutrient uptake.

Prephyte ST
Broad-spectrum, EPA-registered fungicide for prevention, control or suppression of many soil-borne diseases

Base Pail & Seed Fluency:

- 80/20 Talc/Graphite
- Mn & Fe
- 1.35 lbs IonLock Zinc

UNTREATED

PREPHYTE ST

Fusarium Crown Rot Suppression

Root Bio-Stimulant

PREPHYTE™
BROAD-SPECTRUM FUNGICIDE

Key Benefits:

- Directly attacks pathogens
- Improved control of soil-borne diseases
- Stimulates plants natural defenses
- Promotes plant growth and overall yield
- Forms a protective barrier around roots
- No resistance potential

biotrinsic™
by indigo

W12

Key Benefits:

- Consistent Yield Performance
- Season Long Drought Protection
- Water and Nutrient Access
- Flexibility: Biotrinsic W12 can be used on a broad range of corn hybrids and chemical packages.

MAXSTAX TRIAL PERFORMANCE

Prephyte is a bio-fungicide component of MAXSTAX treatment

BIOTRINSIC W12 PERFORMANCE

CORN HARVEST DATA

Biotrinsic M46 Overview and Performance:

- Forms a living beneficial microbial community that grows around and with plant roots all season long
- Shown to enhance root development and the crops' ability to access and retain water
- Helps improve water uptake and reduce water loss during drought stress and during critical reproductive and grain fill stages
- Improves nutrient availability and uptake, especially of essential macro- and micro-nutrients including: N, P, K, S, Mg, Mn, Cu & Fe

NEW Introducing Biotrinsic CRW for Corn...

biotrinsic
by indigo

The Biotrinsic CRW clip is a multiple-mode-of-action indirect bioinsecticide to alleviate corn rootworm damage:

- Biotrinsic CRW clip interacts with the plant to prime the plant's ISR immune defense system. The Biotrinsic CRW clip-treated root produces chemicals that confuse or repel CRW larvae, making it harder for the larvae to find the corn roots.
- Biotrinsic CRW clip root regrowth and recovery stimulation for when larvae reach the root and feed.

UNTREATED

BIOTRINSIC CRW CLIP
